Introduction

Purpose

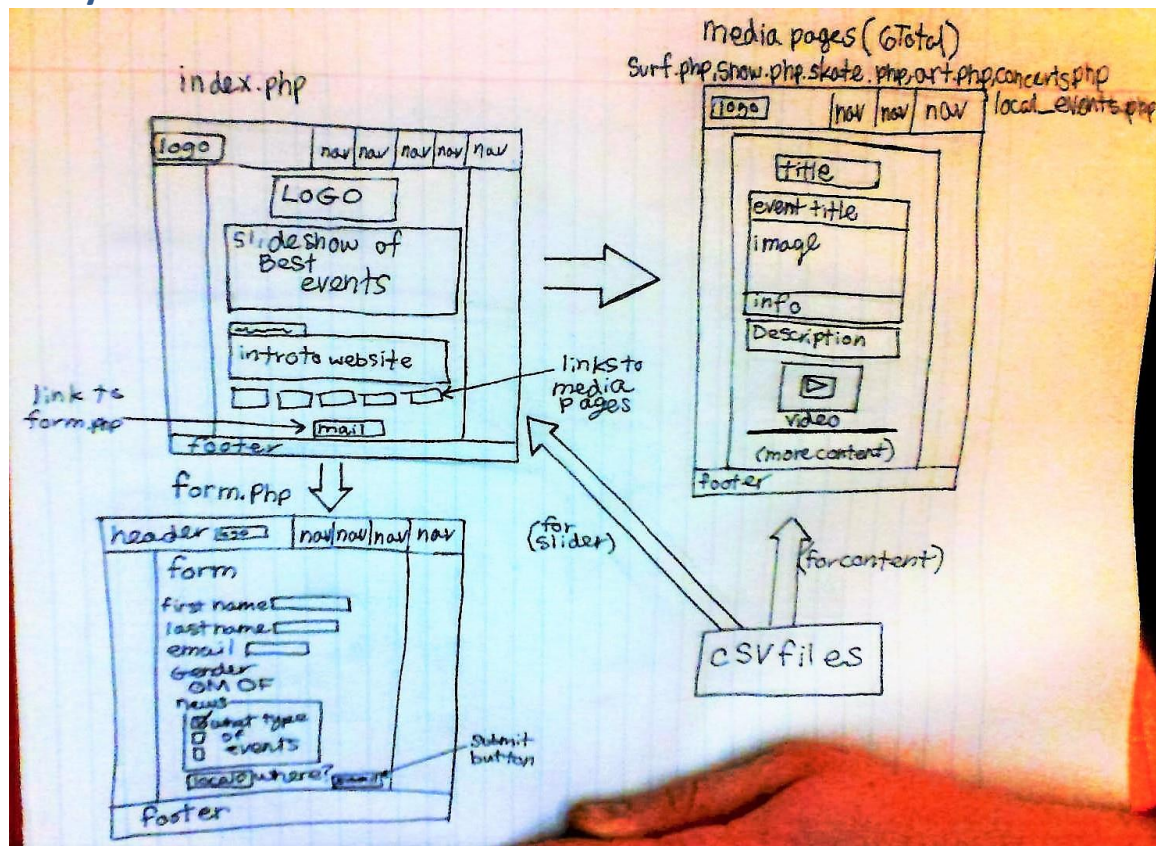

The purpose of this document is to describe the requirement specification for my final project web site.

The intended audience for this document is two fold. First it is the contract between you and the client. Second it is for the developer of the site.

Overall Description

'Statik' is a news and event based website to showcase action-sports events, concerts and art shows. While the site posts global events it has a focus on its home town Burlington, Vermont where there is a page for local events. You are also able to fill out a form to join the mailing list to get updated on events. The pages include Skateboarding, Snowboarding, Surfing, Concerts and Art.

Story Board

Final Project (Statik – action-sports and lifestyle)	Version <5.0>
	12/9/15

Specific requirements

1. Create pages: 'index.php', 'snow.php', 'skate.php', 'surf.php', 'art.php', 'concerts.php', 'local_events.php' and 'form.php'
2. Additional pages to link to: 'nav.php', 'header.php', 'footer.php' and 'top.php'
3. Title for main page: 'Statik'
4. Meta Tags
5. Meta Description: 'Statik is an actions sports and lifestyle web site that highlights events in the Burlington Vt area. The website also showcases athletes, bands and artists from around the world.'
6. Meta Character set: UTF - 8
7. Linked style sheet: 'style.css'
8. Form to gather email and data from user which saves in 'data/registration.csv'.
9. Navigation to all pages.
10. Header displaying title: Statik logo (static_header.png)
11. Footer displaying: my name
12. Body text on index page – what is the static web site about?
13. Form page is clear and easy to fill out (descriptive).
14. Index page uses csv file to get images to run on a jQuery slider
15. Index page has link to all pages and one for signing up for the newsletter.
16. All pages run off their respective CSV file (file name is name of page except csv instead of php) eg. Skate.csv

Final Project (Statik – action-sports and lifestyle)	Version <5.0>
	12/9/15

17. If media is optional php must not print that block if empty (eg. All events don't have videos.)
